About Me

With a background in data science, computer vision, and deep learning, I actively keep up with the latest developments in these fields through the education I've received and the projects I've completed. Additionally, I have strengthened my expertise in cloud computing by working with Huawei Cloud services, gaining hands-on experience in deploying, managing, and optimizing cloud-based applications. During my university years, I developed strong leadership skills through my roles as a community president and project leader. These experiences have provided me with the ability to effectively guide teams and successfully deliver projects.

Education

Selçuk University   September 2021 – Present

Computer Engineering   GPA: 3.73/4

Experiences

Huawei Türkiye   September 2025 – Present

Regional Leader

- Manages and supervises six HSD embassies in the Central Anatolia region, supporting their management processes and activities.

- Organized trainings and events as a Huawei Campus Ambassador at HSD Selçuk University, gaining management skills through the establishment and coordination of project teams.

Technical Skills

Programming Languages
- Python
- .Net
- Node.js

Tools
- Git & GitHub
- Jira & Trello
- Cloud Services/Platforms

Frameworks and Technologies
- OpenCV
- TensorFlow
- Scikit-Learn

Certificates

- HCCDP AI - **Huawei**
- HCCDA AI - **Huawei**
- HCCDA Tech Essentials - **Huawei**
- HCCDA Cloud Native - **Huawei**
- HCCDP Cloud Migration - **Huawei**
- HCCDP Solution Architectures - **Huawei**
- Python and Tensorflow for Data Science - **BTK Akademi**
- Introduction to Data Science with R - **BTK Akademi**
